

West Virginia STEM Robotics Camp

Student Application

Complete and e-mail to Ron Harrison rharrison@jason.org

Name:

Personal Email:

School:

Your Phone Number:

Parent Name:

Parent Phone Number:

List science courses you have taken:

What school and/or community activities/clubs/sports/organization do you belong to, if any?

Describe the personal accomplishment in the past 3 years you are most proud of?

Describe your educational plans for the last two years of high school as well as any post-secondary education plans you have:

Describe a science-related activity/project you took part in that involved hands-on work and groupwork. What contribution did you make to the success of the activity? How could you have been a better team member?

Describe, if any, your experience with the sciences of energy and forces and motion:

Describe, if any, your experience with robotics:

Explain what you think are the benefits of hands-on, project-based learning:

Why should you be one of 32 students selected for this opportunity?

Provide the name and e-mail address of a teacher or administrator we can contact to learn more about your qualifications for this project:

Are there any circumstances you foresee that would hinder your attendance for all 10 days of the camp?
_____ If so, please explain how it would not effect your contribution.

Please place a √ (checkmark) or a Y next to the statements below to confirm your understanding of project expectations.

If chosen for this project, I will:

_____ Promote this opportunity to high-achieving science students in my school.

_____ Attend all 10 days of the camp from July 11-15 and 18-22 from 8:30 – 2:00 in Fairmont, WV.

_____ Work with my team to have a successful, interesting and fun learning experience.

_____ Share the JASON Project web site with fellow students, teachers and others.

_____ Take care of my own transportation to/from camp activities.

_____ Be provided with snacks and lunch each day.
